11 MENACHEM BEGIN STREET RAMAT GAN, ISRAEL 52 521	WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY					
	(PCT Rule 43bis.1)					
	Date of mailing (day/month/year) 16 NOV 2004					
Applicant's or agent's file reference	FOR FURTHER ACTION See paragraph 2 below					
27358 International application No. International filing date	e (day/month/year)	Priority date (d	ay/month/year)		
PCT/IL04/00310 04 April 2004 (04.04) International Patent Classification (IPC) or both national classification						
IPC(7): B24B 1/00 and US Cl.: 451/35,41, 438/692, 106/3						
Applicant						
TECHNION RESEARCH & DEVELOPMENT FOUNDATION	LTD					
1. This opinion contains indications relating to the following items:						
Box No. I Basis of the opinion	of the opinion					
Box No. II Priority						
Box No. III Non-establishment of opinion with	Non-establishment of opinion with regard to novelty, inventive step and industrial applicability					
Box No. IV Lack of unity of invention	Lack of unity of invention					
Box No. V Reasoned statement under Rule 431 applicability; citations and explanate	statement under Rule 43bis.1(a)(i) with regard to novelty, inventive step or industrial y; citations and explanations supporting such statement					
Box No. VI Certain documents cited						
Box No. VII Certain defects in the international	application					
Box No. VIII Certain observations on the interna	ional application					
2. FURTHER ACTION						
If a demand for international preliminary examination is made, this opinion will be considered to be a written opinion of the International Preliminary Examining Authority ("IPEA") except that this does not apply where the applicant chooses an Authority other than this one to be the IPEA and the chosen IPEA has notified the International Bureau under Rule 66.1bis(b) that written opinions of this International Searching Authority will not be so considered.						
If this opinion is, as provided above, considered to be a w IPEA a written reply together, where appropriate, with mailing of Form PCT/ISA/220 or before the expiration of 2	amendments, before t	he expiration of	3 moous no	m une date or j		
For further options, see Form PCT/ISA/220.						
3. For further details, see notes to Form PCT/ISA/220.

WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No.
PCT/IL04/00310

Box No. I Basis of this opinion					
•					
it was	egard to the language, this opinion has been established on the basis of the international application in the language in which filed, unless otherwise indicated under this item.				
	This opinion has been established on the basis of a translation from the original language into the following language, which is the language of a translation furnished for the purposes of international search (under Rules 12.3 and 23.1(b)).				
With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of:					
a.	type of material				
	a sequence listing				
	table(s) related to the sequence listing				
b.	format of material				
	in written format				
	in computer readable form				
c.	time of filing/furnishing				
	contained in international application as filed.				
	filed together with the international application in computer readable form.				
	furnished subsequently to this Authority for the purposes of search.				
3. 🗌	In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.				
4. Additi	onal comments:

WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No. PCT/IL04/00310

Box No. V Reasoned statement under Rule 43 bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement						
1. Statement						
Novelty (N)	Claims	1-52	YES			
Novelly (14)	Claims	NONE	NO			
Inventive step (IS)	Claims	7-25 and 38-40	YES			
inventive step (te)	Claims	1-6,26-37 and 41-52	NO			
Industrial applicability (IA)	Claims	1-52	YES			
Hittibilia apparents, (1-5)		NONE	NO			

2. Citations and explanations:

Claims 1-6, 26-37 and 41-52 lack an inventive step under PCT Article 33(3) as being obvious over Brusic Kaufman et al. Brusic Kaufman et al discloses a composition useful for formation of a passivating layer on a surface comprising a solution having a pH about 2-12 and having an oxidation potential sufficient to oxidize the surface to form copper oxides, abrasive particles are metal oxides, including alumina, ceria, germania, silica, titania, zirconia, abrasive particles comprise between about 1.5% - 6% by weight of composition (note col. 4, line 55 to col. 7, line 25, col. 9, lines 28-38).

Claims 7-25 and 38-40 meet the criteria set out in PCT Article 33(2)-(3), because the prior art does not teach or fairly suggest the oxidation potential is more positive than PpH V relative to saturate calomel reference electrode where PpH =-0.05 x pH + 0.425 or a cation from alkaline metal cations or alkaline earth metal cations and an anion of a weak acid.

Claims 1-52 meet the criteria set out in PCT Article 33(4), and thus having industrial applicability because the subject matter claimed can be made or used in industry.
